TRAILER**

MacAllister

NIKOLA

ACCELERATE YOUR TRANSITION TO ZERO-EMISSIONS VEHICLES. RECHARGE ANYWHERE, ANYTIME WITH THE NIKOLA MOBILE CHARGING TRAILER.

Nikola’s Mobile Charging Trailer (MCT) can help speed up your access to EV operations. While others are waiting for permits and recharging infrastructure to be built, our simple-to-implement MCT can have you on the road to zero-emissions, lightning fast. This will allow you to focus on how you want to operate and grow your EV fleet before you incur a significant capital expense. Knowing how you want to operate your EVs will help you to be smart about your permanent recharging infrastructure plan.

Our MCT is built on a 16-foot trailer platform and is versatile and flexible. The MCT offers a mobile charging capability to support your EV operations at Fleet depot locations or austere environments. The MCT is truly the right charging system, at the right location, at the right time to support your requirements.

MCT CAPACITY

# OF CHARGERS	1- 2
# OF TRUCKS CHARGED PER DAY	2 - 4

CHARGER

	175kW
Manufacturer	Tritium
Connector Type	CCS Type 1
Cable Length	17’ (14’ reach)

FEATURES

- Plug N’ Play
- 1or 2 cable options
- Shore Power Option:**
Input: 480VAC 3ph ± 10 %
Output: 950V DC |Up to 17 8 kW
- Genset Option:**
3 5 0 kW genset
